Professional Summary

Computer Science student at FAST-NUCES with practical experience in Data Analytics, Business Intelligence, dashboard development, and workflow automation through a completed Data Scientist and Analyst internship at JazzWorld. Experienced in Power BI, Excel, Python automation, KPI analysis, data cleaning, validation, visualization, business reporting, and insight generation. Also experienced with C++, Java, JavaScript, HTML, CSS, Object-Oriented Programming, Data Structures & Algorithms, and software design. Interested in Data Analytics, Business Intelligence, Telecom, FinTech, and technology-driven business solutions.

Education

FAST National University of Computer and Emerging Sciences (FAST-NUCES) **Peshawar, Pakistan**
BS Computer Science | CGPA: 2.92 *2024 – Present*

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Software Design & Analysis

Professional Experience

JazzWorld – Jazz / VEON **Peshawar, Pakistan**
Data Scientist and Analyst Intern *31 Jul 2026 – 31 Aug 2026*

- Worked with Sales & Distribution data in a professional telecom environment, gaining practical exposure to business intelligence, KPI monitoring, reporting, and data-driven decision making.
- Used Power BI and Excel for data visualization, KPI tracking, reporting, and basic dashboard development for business performance monitoring.
- Used Python for workflow automation, including handling and processing incoming files as part of an automated data pipeline.
- Worked on Bundle Upsell analysis and an interactive business dashboard using HTML, CSS, JavaScript, Chart.js, and SheetJS/xlsx, covering regional, MBU, FID, bundle, opportunity, and data-quality insights.
- Analyzed business data to identify performance trends, gaps, bundle opportunities, and actionable insights for Sales & Distribution.
- Gained practical experience in professional presentations, team collaboration, stakeholder communication, reporting structures, workplace discipline, and working in a multinational corporate environment.

Rana Child Welfare Foundation Pakistan **Peshawar, Pakistan**
Volunteer Computer Science Instructor *2025 – 2026*

- Taught Computer Science fundamentals and conducted AI awareness sessions for beginner-level students.
- Explained technical concepts in a simple and understandable way, strengthening communication, teaching, and presentation skills.

Edu Vision (IBA Sukkur Society) **Online**
Guest Speaker *2025 – 2026*

- Guided students on FAST admissions, entry tests, scholarships, and university opportunities through online sessions.
- Delivered student-focused guidance and presentations, developing public speaking, communication, and audience engagement skills.

Selected Projects

KPI Intelligence Dashboard – Jazz Sales & Distribution *Power BI | Excel | Python | HTML | CSS | JavaScript | Chart.js | SheetJS*

- Developed a business intelligence dashboard for North Region Sales & Distribution with regional, MBU, FID, bundle, opportunity, and data-quality views.
- Built KPI and performance views covering recharge, revenue, retailer activity, activation events, growth, bundle performance, and regional comparison.
- Worked on Bundle Upsell intelligence including bundle momentum, validity trends, opportunity identification, prioritization, and next-best-action style insights.
- Used Power BI and Excel for visualization, KPI reporting, and data preparation, and Python for workflow automation and incoming-file processing.
- Developed the interactive web dashboard using HTML, CSS, and JavaScript, with Chart.js for interactive charts and SheetJS/xlsx for reading Excel workbooks directly.

Trip Management System *Java | Java Swing | OOP | SOLID | GRASP | RBAC*

- Developed a Java desktop application with Student, Teacher, and Admin portals using Java Swing.
- Implemented role-based access control and applied Object-Oriented Design, SOLID, and GRASP principles.

Food Website Generator *OOP | HTML | CSS*

- Developed a system where users provide restaurant or food-service information and the program generates a basic website.
- Applied Object-Oriented Programming concepts with HTML and CSS for the generated website.

Bank Management System *C++ | Data Structures*

- Developed a system for managing bank accounts, transactions, and records using data structures and structured programming logic.

Library Management System *C++ | Programming Fundamentals*

- Built a system to manage books, users, and borrowing operations using programming and data-handling concepts.

Rock Paper Scissors Game *C++*

- Developed a console-based game using loops, conditional statements, user input handling, and basic programming logic.

Technical Skills

Programming	C++, Java, Python, JavaScript, Assembly Language
Data & Analytics	Data Analysis, Data Processing, Data Cleaning, Data Validation, Data Transformation, Data Visualization, KPI Analysis, Business Analytics, Business Intelligence, Dashboard Development, Reporting
BI & Productivity	Power BI, Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Microsoft Office
Automation & Workflow	Python Automation, Workflow Automation, Data Workflow Pipelines, Automated File Processing
Web Technologies	HTML, CSS, JavaScript, Chart.js, SheetJS/xlsx
Core Computer Science	Object-Oriented Programming, Data Structures & Algorithms, Software Design & Analysis, Problem Solving
Software Design	Object-Oriented Design, SOLID, GRASP, Role-Based Access Control

Business & Professional Skills

Business Analysis	KPI Monitoring, Sales & Distribution Analysis, Performance Analysis, Trend Analysis, Business Reporting, Opportunity Identification, Data-Driven Decision Making, Business Insight Generation
Corporate Skills	Team Collaboration, Stakeholder Communication, Professional Presentation, Reporting, Workplace Communication, Professional Documentation, Corporate Workflow Awareness, Multinational Team Environment
Professional	Communication, Leadership, Public Speaking, Presentation Skills, Teaching, Event Management, Problem Solving

Leadership & Activities

IEEE FAST Peshawar **FAST-NUCES**
Marketing Team Co-Head *Present*

- Contributed to university event promotion, marketing, coordination, and team-based activities.

FAST Book Club Society **FAST-NUCES**
Head of Event Management *Present*

- Organized and coordinated book fairs, cultural activities, and student events.

Community Involvement

Active member of GDGOC, MLSA, Youth Education Support Network, and MAA Welfare. Contributed to student guidance, university admissions, career planning, and community activities.

Achievements

- Received fully funded scholarships during Matriculation, Intermediate, and BS Computer Science.
- Selected for Arch Technologies and Code Alpha programs.
